WHAT IS PROFOSMA JET PLASMA

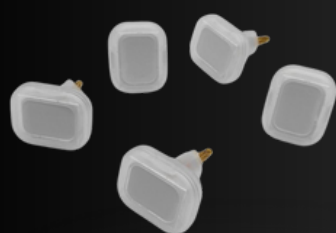

Without any trauma or downtime,
the Jet Plasma Advanced Intradermal treatment
will promote collagen regeneration, tighten and brighten
the skin & promote skin rejuvenation, all whilst sterilising
the skin. It also helps with congested pores and kills
bacteria, fungus & viruses making it a very effective
treatment for Acne, Rosacea and all inflammatory skin
conditions.

It reduces hyperpigmentation, and dark circles.

This is the first device that due to it's high voltage,
activates the fibroblasts right down to the subcutaneous
tissue!

The Profosma R97 has the most powerful output of
14 097 Volts of Cold Plasma energy stimulates new
growth of cells, reduces many skin issues
including but not limited to:
ageing, droopy eyelids, wrinkles, acne,
eczema, rosacea, scars, sun damage,
pigmentation & more

Treatments only take 15 minutes.

WHAT IS PROFOSMA JET PLASMA

• The Profosma Jet Plasma device penetrates 14 097 Volts of Plasma into the dermal & subcutaneous layers of the skin to stimulate collagen production & remodel the cellular structure from the inside out.

• **NO PAIN, NO NUMBING, NO NEEDLES, NO SPOTS
& ZERO DOWNTIME!**

The treatment is suitable for

All Skin Types, All Skin Conditions & All Fitzpatricks

The standard 30min treatment protocol consists of a cleanse, application of 15 min of Jet Plasma, Serum, Moisturiser & SPF.

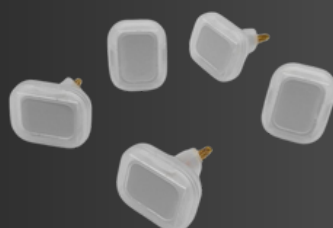

Onboarding:

Complimentary live online training is provided when you purchase the device.

Training Manuals, Documents, Pics, Promo Material & Instructional Videos are also delivered to your inbox for you to learn in your own time.
